CAlto Saxophones XL SERIES

Research and legacy are our strengths!

The Dakota Saxophone lineup can trace its origins to the benches of a small European builder. Focusing on ergonomic key work, engineering innovation and aesthetic details, Dakota Saxophones are instruments that meet the demands of today's prominent artists. The XL SERIES represent the beginning of our journey to become one of today's leading brands of professional saxophones.

SDA-XL-130

Sax Dakota Saxophones – The Dakota Saxophone lineup can trace its origins to the benches of a small European sax builder. Focusing on ergonomic key work, engineering innovation and aesthetic details, Sax Dakota produces instruments that meet the demands of today's leading artists.

Improvements in key action and metal composition are just the start. Stainless steel key rods, specially designed neck tapers and a graduated bell flare that begins at the bottom bow and collar are some of the features that distinguish these horns from so many others. Double armed low C/B/Bb keys along with thin low-profile key pads provide superb response and a consistent tone. Offered in 7 eye catching finishes, there is sure to be a look to match any player's style and personality.

We encourage you to try one of our saxes today....you'll be glad you did.
